Manager's Commentary

Alpha Beta Partners model portfolios are designed to provide access to low-cost, 'Risk First' managed investments that take advantage of the cost and style benefits associated with passive investing coupled with active asset allocation and selection of active managers where appropriate. The Alpha Beta Partners 'Risk First' investment process provides ongoing monitoring and an assurance the portfolio risk profile will not expand beyond stated tolerances. The AB Defensive Income portfolio is the lowest risk portfolio offered by Alpha Beta Partners but is not entirely risk-free.

The AB Defensive Income portfolio is a modern diversified portfolio created to offer low risk and an attractive running yield designed to offer an alternative to platform cash accounts, diversified across a portfolio of larger and fully liquid underlying collective investment schemes. The AB Defensive Income portfolio can be considered cautious, targeting a return above deposit rates whilst aiming to preserve capital.
